

**Job Title:** UiPath Automation Engineer

**Location:** Chennai

**Type:** Full-Time

**Job Description:**

We are seeking a skilled UiPath Automation Engineer to join our team. The ideal candidate will have experience in designing, developing, and implementing automation solutions using UiPath. You will work closely with cross-functional teams to identify automation opportunities, enhance workflows, and contribute to our overall efficiency.

**Key Responsibilities:**

- Design, develop, test, and deploy automation solutions using UiPath.
- Collaborate with business analysts and stakeholders to understand automation requirements.
- Develop reusable components, frameworks, and libraries for UiPath automation processes.
- Monitor and troubleshoot automation processes, resolving issues proactively.
- Perform code reviews and optimize code for performance and maintainability.
- Document technical specifications, automation workflows, and end-user manuals.
- Keep up-to-date with UiPath best practices, updates, and automation trends.

**Required Skills and Qualifications:**

- Bachelor's degree in Computer Science, Information Technology, or related field.
- 2+ years of experience in UiPath development and implementation.
- Strong knowledge of RPA best practices and UiPath Studio, Orchestrator, and Robots.
- Proficient in coding languages such as Python, C#, or VB.NET.
- Experience in process analysis and requirements gathering.
- Excellent problem-solving and debugging skills.
- Strong communication skills and the ability to work independently or as part of a team.

**Preferred Qualifications:**

- UiPath Advanced Developer Certification.
- Experience with REST APIs and database integration.
- Familiarity with Agile development methodologies.
- Previous experience in automating processes in finance, HR, or supply chain domains.

**Benefits:**

- Competitive salary and performance bonuses.
- Health and wellness benefits.

- Professional development opportunities and certifications.
- Flexible work arrangements.
